- (3) A ballot-paper on which the elector has recorded votes for all candidates is not to be rejected as informal merely because:

THREATENED SPECIES CONSERVATION ACT

NSW Scientific Committee
Notice of Preliminary Determinations

THE Scientific Committee, established by the Threatened Species Conservation Act, has made Preliminary Determinations to support proposals to list the following in the relevant Schedules of the Act.

Endangered Species (Part 1 of Schedule 1):

Argyreus hyperbius (Linnaeus, 1763) the Laced Fritillary or Australian Fritillary, a butterfly.

Hygrocybe collucera A.M Young, R. Kearney & E. Kearney, an agaric fungus.

Hygrocybe griseoramosa A.M Young, R. Kearney & E. Kearney, an agaric fungus.

Oberonia complanata (A. Cunn.) M.A. Clem. & D.L. Jones, an orchid.

Ocybadistes knightorum Lambkin & Donaldson, 1994, Black Grass-dart Butterfly.

The Committee is of the opinion that these species are likely to become extinct in nature in NSW unless the circumstances and factors threatening their survival or evolutionary development cease to operate.

Endangered Population (Part 2 of Schedule 1):

Eucalyptus parramattensis C. Hall subsp. *parramattensis* population in Wyong local government area.

Marsdenia viridiflora subsp. *viridiflora* population in the Bankstown, Blacktown, Camden, Campbelltown, Fairfield, Holroyd, Liverpool and Penrith local government areas.

The Committee is of the opinion that these populations are eligible to be listed as endangered populations because their numbers have been reduced to such a critical level, or their habitat has been so drastically reduced, that they are in immediate danger of extinction and they are not populations of a species already listed in Schedule 1 of the Act, and they are disjunct and at or near the limit of their geographic range.

Vulnerable Species (Schedule 2):

Pomaderris notata S.T. Blake, a shrub.

The Committee is of the opinion that this species is likely to become endangered unless the circumstances and factors threatening its survival or evolutionary development cease to operate.

Any person may make a written submission regarding these Preliminary Determinations, which should be forwarded to:

Director General,
National Parks and Wildlife Service,
PO Box 1967,
Hurstville NSW 2220.

Attention: Suzanne Chate, Executive Officer, Scientific Committee.

Submissions must be received by 29th November 2002.

Copies of these Determinations may be inspected at the National Parks Centre, 102 George Street, The Rocks, Sydney and at NPWS Area Offices or Visitors Centres during business hours.

Dr CHRIS DICKMAN,
Chairperson,
Scientific Committee.

- 3.5 All wagers shall be made by placing value chips or colour checks and/or casino promotional tokens or vouchers on the appropriate playing areas of the roulette layout.
- 3.6 The colour checks of a set shall each bear the same distinguishing emblem or mark to differentiate them from colour checks of other sets in use at other tables. Each set shall be subdivided into various colours.
- 3.7 Colour checks issued at a roulette table shall only be used for gaming at that table and shall not be used for gaming at any other table in the casino.
- 3.8 Colour checks shall only be presented for redemption at the table from which they were issued and shall not be redeemed or exchanged at any other location in the casino unless that table is closed at the time of the redemption request.
- 3.9 No player shall be issued with colour checks which are identical in colour and design to colour checks which have been issued to another player at the same table unless the player(s) issued with the colour checks agree to the issue.
- 3.10 Where a player purchases colour checks, the specific value to be assigned to each shall be ascertained by the dealer and if that value exceeds the table minimum it shall be denoted by a colour check and a related marker button bearing a number on it to designate the value set by that player.

- 3.11 At the discretion of a casino supervisor, a player may be issued with colour checks of more than one colour at the same table, provided that as a result, no other player is precluded from wagering with colour checks. In such instances the colours issued to the one player shall be designated the same value.
- 3.12 A wager cannot be withdrawn, placed or changed after the dealer has called "no more bets".
- 3.13 Wagers orally declared shall be accepted only when accompanied by chips or colour checks or casino promotional tokens or vouchers and the dealer has sufficient time to place the wager on the layout prior to "no more bets" being called. All bets must be placed before the call of no more bets.
- 3.14 Players are responsible for the positioning of their wagers on the layout, whether or not they are assisted by the dealer. Players must ensure that any instructions given to the dealer regarding the placement of their wagers are correctly carried out.
- 3.15 Wagers shall be settled strictly in accordance with the position of chips or colour checks or casino promotional tokens or vouchers on the layout when the ball falls to rest in a compartment of the wheel.
- 3.16 A casino supervisor may modify the application of rule 3.15 if it is apparent, in the circumstances, that a strict application of the rule would be unfair to the player.

4. Minimum and Maximum Wagers

- 4.1 The minimum and maximum wagers permitted by a player shall be shown on a sign at the table. Unless stated on the sign, wagers are not required to be made in multiples of the minimum. The sign may also state the minimum unit in which wagers may be made above the table minimum.
- 4.2 Any wager below the stated minimum shall be paid or collected after the result and the owner of the wager shall be advised that further wagers under the minimum shall be returned regardless of the result. Wagers above the stated maximum shall be paid or collected to the maximum.
- 4.3 A casino supervisor may alter the limits on a gaming table at any time except that a minimum wager can only be changed to a higher minimum if a sign indicating the new minimum and proposed time of change has been displayed at the table at least 20 minutes before the change.
- 4.4 A casino supervisor may allow a player to wager in excess of the stated maximum provided that a sign denoting the new minimum and maximum wagers for that player is placed on an appropriate area of the table.

5. Play of the Game

- 5.1 At the completion of all payouts from the previous spin or before the ball is spun, the dealer shall announce "place your bets".
- 5.2 The ball shall be spun by the dealer in a direction opposite to the rotation of the wheel and shall complete at least four (4) revolutions around the track of the wheel to constitute a valid spin.
- 5.3 While the ball is still rotating around the wheel, the dealer shall call "no more bets" and indicate by hand movements above the layout that betting will now cease.
- 5.4 Upon the ball coming to rest in a compartment of the wheel, the dealer shall announce the result and shall place the dolly on the corresponding number on the layout.

- 5.5 After placing the dolly on the layout, the dealer shall:-
- 5.5.1 in the case where no race-track is in use, collect all losing wagers from the layout then proceed to pay all winning wagers;
- 5.5.2 in the case of the race-track shown in diagram B:
- 5.5.2.1 collect all losing wagers from the race-track and place all winning wagers from the race-track onto the corresponding section of the layout;
- 5.5.2.2 collect all losing wagers on the layout and proceed to pay all winning wagers;
- 5.5.3 in the case of the race-track shown in diagram C:
- 5.5.3.1 collect all losing wagers from the race-track and place all winning wagers from the race-track onto the corresponding number of the layout;
- 5.5.3.2 collect all losing wagers on the layout and proceed to pay all winning wagers.

- 6.2 When the ball comes to rest in the compartment of the wheel marked "zero" or "double zero", all wagers shall lose other than those made straight up on the "zero" or "double zero" or made in any available combination of the "zero" with the numbers "double zero", and/or one and/or two; or "double zero" with the numbers "zero", and/or two and/or three.
- 6.3 Winning wagers made straight up on the "zero" or "double zero" or made in any available combination of the "zero" with the numbers "double zero", and/or one and/or two; or "double zero" with the numbers "zero", and/or two and/or three shall be paid at the same odds as would apply in respect of the same type of wager involving any other numbered square on the layout.

7. Rapid Roulette

Where the game in play is Rapid Roulette, the approved rules of Roulette shall apply, except where the rules are inconsistent with the rules of Rapid Roulette, in which case the rules of Rapid Roulette shall prevail.

7.1 Equipment

- 7.1.1 In addition to equipment described in rules 2.1, 2.2, 2.3 and 2.4 the game of Rapid Roulette shall be played with the following equipment:
- 7.1.1.1 up to 24 ATS units;
 - 7.1.1.2 an SGC;
 - 7.1.1.3 a game system (other than an SGC and one or more ATS units); and
 - 7.1.1.4 at the discretion of the casino operator, a winning number display unit (WND).
- 7.1.2 The display of the touch screen monitor of an open ATS must display all the elements substantially similar to that shown in Diagram F; and
- 7.1.2.1 may contain any additional elements necessarily required by these rules; and/or
 - 7.1.2.2 may include features in addition to those shown in Diagram F, if those features are not inconsistent with Diagram F or these rules.
- 7.1.3 A drop box shall be attached to the dealer's (SGC) podium and, where so provided, a note acceptor shall be attached to each ATS.

7.2 Wagers

- 7.2.1 The permissible wagers for the game of Rapid Roulette shall be those wagers defined in rules 3.2 and 3.3.
- 7.2.2 A person wishing to play the game must first establish an ATS account by either:
- 7.2.2.1 the tendering to the dealer of an amount of cash, chips or casino promotional tokens or vouchers; or
 - 7.2.2.2 inserting an amount of cash into the ATS note acceptor.
- 7.2.3 Where a player tenders cash, chips or casino promotional tokens or vouchers to the dealer the dealer must:
- 7.2.3.1 give the player control of an ATS; and
 - 7.2.3.2 activate an ATS chip account in respect of the ATS by crediting it with the amount tendered, thereby causing that amount to be shown as standing to the credit balance of the ATS chip account.
- 7.2.4 Where a player inserts cash into an ATS note acceptor, the amount of cash will automatically be credited to the ATS chip account in respect of that ATS, thereby causing that amount to be shown as standing to the credit of the ATS chip account.
- 7.2.5 The person for the time being in control of an open ATS may at any time:

- 7.2.5.1 tender further amounts of cash, chips or casino promotional tokens or vouchers to the Dealer who must, as soon as practicable, credit the amount tendered to the player's ATS chip account; or
- 7.2.5.2 insert a further amount of cash into the ATS note acceptor.

7.2.6 All wagers shall be made by the player appropriating money standing to the credit of the player's ATS chip account to a particular bet by first selecting the value to be placed by touching denomination chip on the ATS screen and then touching the appropriate playing area(s) on the layout prior to the end of the wagering period for that spin, thereby debiting the player's ATS balance by the amount of the wager.

7.2.7 The player to whom the dealer has given control of an ATS is solely responsible for the placement of the chips appearing on the ATS.

7.2.8 A wager cannot be withdrawn, placed or changed after the expiry of the wagering period.

7.2.9 Wagers shall be settled strictly in accordance with the position of the chips appearing on the ATS electronic layout at the time a wagering period expires.

7.3 Minimum and Maximum Wagers

7.3.1 The minimum and maximum wagers permitted by a player shall be shown on a sign at the table. Unless stated on the sign, wagers are not required to be made in multiples of the minimum. The sign may also state the minimum unit in which wagers may be made above the table minimum and/or the minimum and/or maximum permitted aggregate wager (if any).

7.3.2 If a player attempts to place an individual wager that is less than the minimum permissible wager for a particular bet, the ATS must reject such wager and will not debit the player's ATS balance in respect of that wager.

7.3.3 If a player attempts to place a wager(s) that is:

- 7.3.3.1 in a multiple over the minimum which is not permitted; or
- 7.3.3.2 is greater than the maximum permissible wager; or
- 7.3.3.3 in aggregate greater than the permitted aggregate wager;

the ATS must display only so many chips or such denomination of chips as is the next lowest permitted wager and will not debit the player's ATS balance in respect of that portion of the wager which is not permitted.

7.3.4 If, by the end of the wagering period for a single spin, a player has placed one or more wagers which are in aggregate less than the permitted aggregate wager the ATS must not accept the wager(s) and will cause the amount of the wager(s) to be credited back the player's ATS balance.

7.4 Play of the Game

7.4.1 The casino operator will determine the length of the wagering period will be for the game.

7.4.2 Each ATS must clearly display a countdown of the remaining portion of the wagering period for the next spin.

7.4.3 The dealer:

- 7.4.3.1 may spin the ball at any time after the start of the wagering period, if the dealer reasonably believes that the ball will only come to rest after the wagering period expires; and
- 7.4.3.2 if the ball has not been spun before the end of the wagering period, must spin the ball as soon as practicable after the wagering period expires.

7.4.4 When, after the ball is spun, it comes to rest, the dealer must:

- 7.4.4.1 announce the winning number; and
- 7.4.4.2 enter that outcome into the SGC; or
- 7.4.4.3 where a winning number sensor is being used, confirm the number with the SGC by accepting the number displayed on the SGC.

7.5 Settlement

- 7.5.1 When an outcome has been entered into the SGC, the game system must display the outcome of the spin on each open ATS; and in respect of the wager or wagers placed on an ATS must:
 - 7.5.1.1 clear any losing wager, by causing the chips representing that wager to disappear from the display; and
 - 7.5.1.2 pay any winnings thereby causing an appropriate amount to be shown on the ATS win meter; and
 - 7.5.1.3 return the value of winning wagers to the ATS chip account; and
 - 7.5.1.4 automatically calculate and display the balance of the ATS chip account as a result of the outcome and clear the electronic layout of all previous wagers.
- 7.5.2 Winning wagers at the game of Rapid Roulette shall be paid in accordance with rule 6.
- 7.5.3 A player wishing to leave the game may do so at any time within the wagering period by activating the cash out button providing no wagers have been placed on the current spin. The dealer must pay out the full value of the player's ATS chip account balance by tendering chips and closing the ATS chip account.

8. Irregularities

- 8.1 If the ball is spun in the same direction as the wheel is rotating, the dealer or casino supervisor shall announce "no spin" and the dealer shall attempt to remove the ball from the wheel prior to it coming to rest in one of the compartments.
- 8.2 If the dealer or game supervisor anticipates that the ball will not complete four revolutions around the track of the wheel, the dealer or casino supervisor shall announce "no spin" and the dealer shall attempt to remove the ball from the wheel prior to it coming to rest in one of the compartments.
- 8.3 If a foreign object enters the wheel prior to the ball coming to rest the dealer or casino supervisor shall announce "no spin" and the dealer shall attempt to remove the ball from the wheel prior to it coming to rest in one of the compartments.
- 8.4 If the ball fails to fall into one of the compartments the dealer or casino supervisor shall announce "no spin".
- 8.5 If the ball is propelled or falls out of the wheel, the dealer or casino supervisor shall announce "no spin". Upon retrieval the ball shall be examined by a supervisor.

- 8.6 If any person interferes with the ball or the rotation of the wheel, the dealer or the casino supervisor shall announce "no spin".
- 8.7 If in the game of Rapid Roulette the ball comes to rest prior to the end of the wagering period the dealer or casino supervisor shall announce "no spin".
- 8.8 Once the dealer or a casino supervisor has announced "no spin", it shall be an invalid spin regardless of whether or not the ball comes to rest in one of the compartments prior to the dealer's attempt to remove the ball from the wheel.
- 8.9 After a "no spin" the dealer shall return the ball to the previous winning number compartment and re-spin in accordance with rule 5.
- 8.10 The WND unit must be disregarded if the WND unit displays a number other than the actual outcome.
- 8.11 Where the game in play is Rapid Roulette, if the dealer reasonably forms the view that he or she has entered an incorrect outcome into the SGC, the dealer or casino supervisor must freeze all ATS chip accounts and cause the results to be re-calculated based on the actual outcome.
- 8.12 Where the game in play is Rapid Roulette, if an ATS experiences a malfunction:
- 8.12.1 prior to the expiry of the wagering period, the dealer or casino supervisor must treat as void all wagers placed on the ATS for the relevant spin; or
 - 8.12.2 on or after the expiry of the wagering period, the dealer or casino supervisor must seek to confirm what wagers were placed through the analysis of available records and cause the appropriate adjustments to be made.
- 8.13 Where the game in play is Rapid Roulette, if the game system (other than an ATS) experiences a malfunction (including by reason of physical damage):
- 8.13.1 prior to the expiry of the wagering period, the dealer or casino supervisor must treat as void all wagers placed by all players for the relevant spin, or
 - 8.13.2 on or after the expiry of the wagering period, the dealer or casino supervisor must seek to confirm what wagers were placed through the analysis of available records and cause the appropriate adjustments to be made.
- 8.14 for the purposes of this Rule, a Rapid Roulette SGC or ATS shall be taken to have malfunctioned where:
- 8.14.1 multiple credits are displayed on the credit meter of the ATS and/or SGC that are not in keeping with the prize schedule and the amount wagered; or
 - 8.14.2 the ATS and/or SGC displays numbers not in keeping with the game format; or
 - 8.14.3 the normal playing sequence of the ATS and/or SGC is permanently interrupted or the normal display is faulty; or
 - 8.14.4 for any other reason the casino operator is of the opinion that the ATS and/or SGC is not functioning correctly.
- 8.15 If the dealer or casino supervisor is unable, for the purposes of rules 8.12.2 and 8.13.2, to confirm the relevant wagers placed through the analysis of available records, the casino supervisor must void those wagers.
- 8.16 Where the game in play is Rapid Roulette, the casino operator may withhold payment of any amount to be credited to a player's ATS chip account, or demand the return of any amount credited

to a player's ATS chip account, until such time as the casino operator has completed an investigation and made a determination. An Inspector is to be notified as soon as practicable of such an event.

- 8.17 Where the game in play is Rapid Roulette, players are required to notify the casino operator in the event of any malfunction of an ATS at which they are playing. Failure to do so, and the retention of any prizes, chip account credit or free play as a result of an ATS malfunction or dealer error, may be considered to be a contravention of these rules.

9. General Provisions

- 9.1 A person shall not, either alone or in concert with any other person, use or control at or near a gaming table or location related to the playing of a game a calculator, computer, or other electronic, electrical or mechanical apparatus or device that is capable, with respect to a game or a part thereof, of recording, projecting, analysing or transmitting an outcome or the changing probabilities or the playing strategies to be used.

- 9.10 Players and spectators are not permitted to have side bets with or against each other.
- 9.11 Any dispute or complaint concerning a casino game shall be referred for decision in the first instance to a game supervisor, subject to a review (if requested) by a casino supervisor. In the absence of a game supervisor the matter shall be referred in the first instance to a casino supervisor. The decision of the casino supervisor shall be final, subject to rule 9.12.
- 9.12 Complainants in all unresolved disputes shall be advised of the presence of, and their right to consult, an inspector. Where a complainant requests review of the decision by an inspector, the inspector shall investigate the complaint in accordance with section 110 of the Act.

TRAVEL AGENTS ACT 1986 LIST OF LICENSED TRAVEL AGENTS

SECTION 40 (2) of the Travel Agents Act 1986 requires the Director General of the Department of Fair Trading to publish in the Government Gazette from time to time a list of licence holders.

Section 40 (7) of the Act deems the supplier of travel services to an unlisted travel agent to have aided and abetted that person in carrying on business as a travel agent. Thus the supplier could be subject to the same penalty of 500 penalty units as the agent is trading without a licence.

Suppliers of travel services should not deal with an unlisted person or corporation unable to produce a travel agent's licence.

DO YOU STORE FORMS AND DOCUMENTS IN YOUR OFFICE???

Common use forms — pads — books

The Government Printing Service carries a comprehensive range of standard usage State government forms at its security warehouse located at Regents Park. How do you get them? Just send a fax to our FastForms control centre and the goods will be on the way to you in 24 hours.

Facility Management of your documents

The GPS helps many areas of government by taking over and managing the range of forms used. Departments and Agencies are achieving full “user pays” benefits by engaging FastForms to manage and replenish the forms range used. This allows funds that are tied up in in-house inventory to be released for departmental core functions.
