This Regulation is made under the *Workers Compensation Act 1987*, including sections 174 (Records relating to wages, contracts etc to be kept and supplied by employers), and 280 (the general regulation-making power) and Part 20 of Schedule 6.

under the

I, Professor Marie Bashir AC, Governor of the State of New South Wales, with the advice of the Executive Council, and on the recommendation of the WorkCover Authority, and in pursuance of section 168 of the *Workers Compensation Act 1987*, make the following Order.

By Her Excellency's Command,

JOHN DELLA BOSCA, M.L.C.,
Special Minister of State

Explanatory note

Section 168 of the *Workers Compensation Act 1987* provides that the Governor may, by order made on the recommendation of the WorkCover Authority and published in the Gazette, fix the manner in which the premium payable by an employer (or a person who proposes to become an employer) for a policy of insurance under the Act is to be calculated.

The object of this Order is to fix the manner in which such a premium is to be calculated in respect of policies of insurance that are to be or have been issued or renewed so as to take effect on or after 4 pm on 30 June 2001.

Insurance Premiums Order 2001–2002

1 Name of Order

This Order is the *Insurance Premiums Order 2001–2002*.

2 Commencement

This Order commences at 4 pm on 30 June 2001.

3 Calculation of insurance premium payable by employer

The premium payable by an employer for a policy of insurance is to be calculated by requiring the premium to be calculated for a period of insurance of not more than 12 months and:

(a) if the employer is a category A employer for the purposes of the policy, in accordance with the following formula:

$$P = \left(\left(T \times \left(1 - S\right)\right) + \left(E \times S\right)\right) + Q - Y + D - I$$

except that where the basic tariff premium does not exceed $112,000, the experience adjusted premium [(T × (1 – S)) + (E × S)] is not to exceed twice the amount of that basic tariff premium [2T],

(b) if the employer is a category B employer for the purposes of the policy, in accordance with the following formula:

$$P = \left(T + \left(X \times T\right)\right) + Q - Y + D - I$$

where:

"P" is the premium for the time being payable by the employer in respect of the period of insurance to which the policy relates, being:

(a) except as provided by paragraph (b) below, the initial premium so payable in accordance with this Order, or

(b) where adjustments are required to be made to that premium by reason of the operation of this Order, the premium so payable by reason of those adjustments,

"T" is the basic tariff premium for the employer, calculated with respect to the period of insurance in accordance with Schedule 3 to this Order,

"S" is the experience adjustment factor for the employer determined with respect to the period of insurance in accordance with Schedule 4 to this Order,

"E" is the experience premium, if any, for the employer determined with respect to the period of insurance in accordance with Schedule 5 to this Order,

(3) **Related corporation**

For the purposes of this Order, an employer that is a corporation is related to another corporation (whether or not that other corporation is an employer) if:

(a) the employer and the other corporation are, by reason of the Corporations Law, taken to be related to each other, or

(b) the directors of the employer are accustomed or under an obligation, whether formal or informal, to act in accordance with the directions, instructions or wishes of the directors of the other corporation, or

(c) the directors of the other corporation are accustomed or under an obligation, whether formal or informal, to act in accordance with the directions, instructions or wishes of the directors of the employer, or

(4) However, an employer that is a corporation is not related, for the purposes of this Order, to another corporation (whether or not that other corporation is an employer) if:

(a) the employer and that other corporation are not, by reason of the Corporations Law, taken to be related to each other, and

(b) the employer establishes that neither the employer nor the other corporation carry on a trade, business or profession so as to avoid or evade the payment of a premium payable by either the employer or the other corporation for a policy.

(5) The value of any amount of money calculated or included in a calculation under this Order is to be expressed in dollars.

(6) In this Order, a reference to wages that are payable by an employer includes a reference to wages that have been paid by the employer.

(7) In this Order, a reference to any GST that is payable by an employer includes a reference to GST that has been paid by the employer.

(8) In this Order, a reference to any input tax credit that may be claimed by an employer includes a reference to any input tax credit that has been claimed by the employer.

2 Classification of employer's business

(1) For the purposes of this Order, the classification applicable to an employer is the class in Column 2 of Table A (NSW WorkCover Industry Classification System) to which the employer's business corresponds.

(2) An employer's basic tariff premium is determined having regard to the classification applicable to the employer's business. An employer's business means the employer's business or industrial activity.

(3) An employer may carry on a single business or more than one business at the same time.

(4) If an employer carries on a single business, the classification applicable to the business is that which most accurately describes the entire business of the employer. The entire business includes not only the operations and activities directly involved in the conduct of the business, but also all operations and activities incidental to the conduct of the business.

(5) If an employer carries on more than one business, so that it can be said that the employer carries on separate and distinct businesses, subclause (4) applies to each such separate and distinct business.

(6) Generally, businesses are not separate and distinct if the operations and activities carried on in those businesses are incidental to one another.

(7) In determining whether businesses are separate and distinct (for classification purposes) it is relevant to take the following into account:

(a) the nature of the operations and activities (including incidental operations and activities) respectively carried on in the businesses,

(b) differences in the identity of the workers respectively engaged in the businesses (and in particular of the workers engaged in the manufacturing or industrial activities and operations),

(c) differences in locations of the businesses, for example, differences in locations may vary from sites far removed from each other, or separate floors in a given building, or even separate parts on the one floor level of a building (the important element in relation to location is that normally separate and

distinct businesses have exclusive use of the particular area in which the operations and activities of the business are carried on).

3 Determination of wages

(1) In this Order, a reference to wages, in relation to a period of insurance under a policy issued or to be issued to an employer or in relation to a period of 12 months ascertained by reference to any such period of insurance, is a reference:

(a) except as provided by paragraph (b), to a reasonable estimate of the monetary value of all wages (not including any wages to which Schedule 8 applies) payable to workers by the employer in respect of the period of insurance or the period of 12 months, as the case may be as calculated by reference to the returns, if any, furnished in accordance with the regulations by the employer to the insurer, or

(b) where the monetary value of those wages (not including any wages to which Schedule 8 applies) has been ascertained—to the actual value of those wages.

(2) If at any time the employer has failed to furnish the returns in respect of any relevant period of insurance and the monetary value of the wages concerned has not been ascertained, the estimate of the monetary value of those wages is taken to be such amount as is calculated by multiplying the monetary value (or reasonable estimate) of wages for the immediately preceding equivalent period of insurance by 1.2.

Schedule 2 Application

1 Policies to which Order applies

(1) This Order applies to and in respect of policies of insurance that are to be or have been issued or renewed so as to take effect on or after 4 pm on 30 June 2001 and before 4 pm on 30 June 2002.

(2) If, before 4 pm on 30 June 2002, an insurance premiums order has not been made in respect of policies of insurance taking effect on or after that time, this Order applies to and in respect of those policies pending the making of such an order.

2 Policies exempt from Order

This Order does not apply to policies of insurance exempted by section 168 (4) (b) of the Act and by the *Workers Compensation (Insurance Premiums) Regulation 1995*.

Schedule 3 Basic tariff premium

1 General

(1) The basic tariff premium ("T") for an employer is to be calculated in accordance with the following formula:

$$(Wa \times Ra) + (Wb \times Rb) + \ ....(Wn \times Rn)$$

where:

"Wa", "Wb". . . . "Wn" are each a part of the total wages payable to workers by the employer in respect of the period of insurance for which the premium is to be calculated, being a part of the total wages attributable to a class appearing in Column 2 of Table A applicable to the employer,

"Ra", "Rb". . . . "Rn" are each a percentage rate specified in Column 4 of Table A that corresponds with a class applicable to the employer, being a class appearing in Column 2 of Table A opposite the percentage rate.

(2) For the purposes of subclause (1), the classifications applicable to an employer and the part of total wages payable by an employer that is attributable to any such classification are to be as determined by reference to returns, if any, furnished in accordance with the regulations by the employer to the insurer, or by other information from the employer.

2 Exceptions

(1) If the policy concerned relates to per capita rates in respect of some or all workers, those rates are to be substituted for wages in respect of those workers to determine "Wa", "Wb". . . . "Wn" in the formula in clause 1.

(2) If the employer does not supply sufficient information to enable the business to be classified, the business is to be classified in the class with the highest percentage rate that appears to be applicable to the business. The business may be reclassified to a class having a lower percentage rate when sufficient information is supplied.

3 Transitional adjustment provision

(1) An employer may apply to the Authority to have a new percentage rate adjusted downward if:

(a) the new percentage rate is more than 50% greater than the corresponding old percentage rate, and

(b) the increase is solely attributable to the change from a classification under the *Insurance Premiums Order 2000–2001* to a classification under this Order (both classifications being correct).

(2) A downward adjustment to a new percentage rate may not reduce the rate to a percentage rate that is less than the percentage rate that is 50% greater than the corresponding old percentage rate.

(3) This clause does not apply to any increase in an old percentage rate that is due to a change of business activity.

(4) The Authority may issue guidelines for or with respect to any of the following:

(a) the manner in which applications under this clause are to be made,

(b) criteria for determining how downward adjustments are calculated,

(c) other matters relevant to the transition to the NSW WorkCover Industry Classification System.

(5) If the Authority calculates a downward adjustment of a percentage rate, the insurer must redetermine the employer's premium in accordance with that adjusted rate.

(6) A downward adjustment, or an application for a downward adjustment, under this clause is not a ***disputed aspect*** for the purposes of section 170 of the 1987 Act.

(7) In this clause:

new percentage rate, in relation to an employer, means a percentage rate in Column 4 of Table A to this Order that applies to the employer.

old percentage rate, in relation to an employer, means a percentage rate in Column 3 of Table A to the *Insurance Premiums Order 2000–2001* that applies to the employer.

Schedule 4 Experience adjustment factor

1 General

(1) The experience adjustment factor ("S") for an employer is:

(a) where the employer:

(i) has been insured under a policy or policies for the period of 2 years immediately preceding the commencement of the period of insurance for which the premium is to be calculated or has been so insured for a longer period, and

(ii) has, during those 2 years, supplied the insurer with particulars complying with the regulations of claims against the employer,

the factor calculated in accordance with the following formula:

$$\frac{0.9T}{T + 225{,}000}$$

(b) in any other case—0,

where:

"T" is the basic tariff premium for the employer, calculated with respect to the period of insurance in accordance with Schedule 3 to this Order and assuming the period of insurance to which the premium relates to be 12 months (whether or not that period of insurance is in fact 12 months).

(2) For the purposes of subclause (1) (a), an employer is taken to have been insured for the period of 2 years referred to in that paragraph even if there has been a break or breaks in insurance within that period.

2 Employers who were previously self-insurers

If an employer was not insured for the period of 2 years referred to in clause 1 (1) (a), because the employer was a self-insurer during the whole or any part of that period, the formula in clause 1 (1) (a) applies as if the employer had been insured under a policy (and supplied particulars) during the whole of that period.

3 Employers who acquire business etc

The period referred to in clause 1 (1) (a) during which an employer has been insured under a policy or policies and supplied particulars of claims includes any period during which a predecessor of the employer has been so insured and supplied particulars.

4 Reduction of experience adjustment factor

(1) Where there has been a break or breaks in insurance, the experience adjustment factor may be reduced (including to nil) at the request of an employer.

(2) The Authority may develop criteria for determining eligibility for a reduction, the method for calculating any reduction and other relevant matters, and may issue guidelines setting out such matters.

Schedule 5 Experience premium

1 General

(1) The experience premium ("E") for an employer is to be calculated:

(a) (i) for the purpose of calculating the initial premium payable before the expiration of the period of insurance for which the premium is to be calculated, and

(ii) after the period of insurance for which the premium is to be calculated has expired (being a period that is less than 12 months),

in accordance with the following formula:

$$W \times \left\{ \frac{\left(F_{80} \times C_1\right) + \left(F_{81} \times C_2\right)}{W_1 + W_2} \right\}$$

(b) after the period of insurance for which the premium is to be calculated has expired (being a period that is not less than 12 months), in accordance with the following formula:

$$W \times \left\{ \frac{\left(F_{82} \times C_0\right) + \left(F_{83} \times C_1\right) + \left(F_{84} \times C_2\right)}{W_0 + W_1 + W_2} \right\}$$

where:

"W" is the total of the wages payable to workers by the employer in respect of the period of insurance,

"F_{80}" is 4.7,

"F_{81}" is 3.1,

"F_{82}", "F_{83}" and "F_{84}" are such numbers as are determined by the Governor on the recommendation of the WorkCover Authority and notified in the Gazette,

"C_1" and "C_2" are respectively the totals of the cost of claims for the employer in respect of the last and second last period of 12 consecutive months that occurred before the commencement of the period of insurance (not including the cost of any claims under sections 10 (Journey claims) and 11 (Recess claims) of the Act),

"C_0" is the total of the cost of claims for the employer in respect of the period of insurance (not including the cost of any claims under sections 10 (Journey claims) and 11 (Recess claims) of the Act),

"W_1" and "W_2" are respectively the totals of the wages payable to workers by the employer in respect of the last and second last period of 12 consecutive months that occurred before the commencement of the period of insurance,

"W_0" is the total of the wages payable to workers by the employer in respect of the period of insurance.

(2) If an employer's policy is renewed and the employer does not supply the insurer, in accordance with clause 6 (2) of the *Workers Compensation (Insurance Premiums) Regulation 1995*, with a duly completed return relating to wages paid during the last period of insurance preceding that renewal, the insurer may, for the purpose of calculating the initial premium payable by the employer for the renewed policy, determine the amount of "W_1" in the formula in subclause (1) (a) to be the amount determined as "W" in the calculation of the experience premium for the employer in respect of the last period of insurance preceding that renewal.

(3) If during any past period referred to in C_1, C_2, W_1 or W_2in the formula in subclause (1) (a) a predecessor of the employer was insured under a policy or policies:

(a) the cost of claims for the employer during that period includes, for the purposes of $C_1$and C_2, the cost of claims for the predecessor in respect of the business acquired by the employer, and

(b) the wages payable to workers by the employer during that period includes, for the purposes of $W_1$and W_2, the wages payable to workers by the predecessor in respect of the business acquired by the employer.

(4) If the policy concerned relates to per capita rates, those rates are to be substituted for wages to determine W, W_0, W_1 or W_2 in the applicable formula in subclause (1).

(5) If the policy concerned relates to both per capita rates and wages, 2 separate calculations of E ("E_1" and "E_2") are to be made and E is to equal the sum of E_1 and E_2 where:

(a) "E_1" is calculated by using the applicable formula in subclause (1),

(b) "E_2 is calculated by using the applicable formula in subclause (1) but also by substituting the per capita rates for wages to determine W, W_0, W_1 or W_2 in that formula.

2 Definition

In this Schedule, ***cost of claims*** has the same meaning as in Part 3 of the *Workers Compensation (Insurance Premiums) Regulation 1995*.

Schedule 6 Excess surcharge factor

The excess surcharge factor ("X") for an employer is:

where:

"T" is the basic tariff premium for the employer, calculated with respect to the period of insurance in accordance with Schedule 3 to this Order,

"S" is the experience adjustment factor for the employer determined with respect to the period of insurance in accordance with Schedule 4 to this Order,

"E" is the experience premium, if any, for the employer determined with respect to the period of insurance in accordance with Schedule 5 to this Order,

"X" is the excess surcharge factor for the employer determined with respect to the period of insurance in accordance with Schedule 6 to this Order,

"Y" is the premium discount amount, if any, for the employer determined with respect to the period of insurance in accordance with Schedule 10 to this Order,

"Q" is the premiums adjustment contribution, if any, for the employer,

"B%" is the percentage rate specified in Column 2 of the Table to this clause that corresponds to the range of input tax credit entitlement specified in Column 1 that contains the input tax credit entitlement for the employer.

2 Determination of input tax credit entitlement for the purposes of the calculation of premium

(1) In this Schedule, a reference to the input tax credit entitlement for an employer, in relation to a period of insurance, is a reference to the employer's input tax credit entitlement notified in respect of that period in accordance with clause 9A of the *Workers Compensation (Insurance Premiums) Regulation 1995* by the employer to the insurer.

(2) If at any time the employer has failed to notify the insurer of the employer's input tax credit entitlement in respect of that period in accordance with clause 9A of the *Workers Compensation (Insurance Premiums) Regulation 1995*, the employer's input tax credit entitlement in respect of that period is for the purposes of this Schedule taken to be 100%.

Schedule 10 Premium discount scheme

1 General

The premium discount amount ("Y") in respect of a period of insurance is to be calculated:

(a) if the employer is a category A employer for the purposes of the policy, in accordance with the following formula:

$$Y = PDS\ level \times \left(\left(T \times \left(1 - S\right)\right) + \left(E \times S\right) + Q\right)$$

If the basic tariff premium does not exceed $112,000, and if the experience adjusted premium [(T × (1 – S)) + (E × S)] exceeds twice the value of the basic tariff premium [T], then the value of 2T replaces the experience premium in the above formula. That is, where the [2T] limit applies, then:

$$Y = PDS\ level \times \left(2T + Q\right)$$

(b) if the employer is a category B employer for the purposes of the policy, in accordance with the following formula:

$$Y = PDS\ level \times \left(\left(T + \left(X \times T\right)\right) + Q\right)$$

(c) the maximum value of Y (maximum premium discount amount) is:

(i) $75,000 with respect to the employer's first year of participation,

(ii) $50,000 with respect to the employer's second year of participation,

(iii) $25,000 with respect to the employer's third year of participation,

where:

"T" is the basic tariff premium for the employer, calculated with respect to the period of insurance in accordance with Schedule 3 to this Order,

"S" is the experience adjustment factor for the employer determined with respect to the period of insurance in accordance with Schedule 4 to this Order,

"E"	is the experience premium, if any, for the employer determined with respect to the period of insurance in accordance with Schedule 5 to this Order,
"X"	is the excess surcharge factor for the employer determined with respect to the period of insurance in accordance with Schedule 6 to this Order,
"Q"	is the premiums adjustment contribution, if any, for the employer,
"Y"	is the amount of the premium discount on the insurance premium payable by the employer,
"PDS level"	is the PDS level specified for a year of participation of the employer under Part 9 of the *Workers Compensation (Insurance Premiums) Regulation 1995*.

2 Entitlement to a premium discount

An employer's entitlement to a premium discount amount is to be determined in accordance with Part 9 of the *Workers Compensation (Insurance Premiums) Regulation 1995*.

3 Definition

In this Schedule:

first year of participation, ***second year of participation*** and ***third year of participation***, in relation to an employer, have the same meanings as in Part 9 of the *Workers Compensation (Insurance Premiums) Regulation 1995*.

Table A NSW WorkCover Industry Classification System

(Schedule 3)

Notes

1 The following activities should *not* be considered as separate and distinct businesses (as referred to in clause 2 of Schedule 1):

(a) Clerical Support Services

(b) Management Services

(c) Administrative Services

(d) Sales and Marketing

(e) Head Office Activities

(f) Warehousing associated with Manufacturing or Retailing.

These activities are *not* entitled to a separate class but should be considered incidental to the employer's other activity or activities. Consequently the wages of any such workers will attract the percentage rate of the class that is appropriate to the employer's business.

2 In the event that an employer carries on separate and distinct businesses (as referred to in clause 2 of Schedule 1) then workers engaged in the activities listed in clause 1 (a)–(f) are to each be allocated to one of those two or more separate and distinct businesses. Any such allocation will be on the following basis:

(a) if such a worker is occupied wholly or predominantly in just one of the employer's separate and distinct businesses then the entire wages of the worker will attract the percentage rate of the class appropriate to that business,

(b) if such a worker is occupied substantially in more than one of the employer's separate and distinct businesses then the entire wages of the worker will attract the lowest percentage rate of the classes appropriate to the various business activities in which the worker is occupied. (In the event that those two or more separate and distinct businesses each have the same percentage rate then the worker's entire wages will attract the class with the lowest number).

3 (1) If an employer:

(a) is related to another corporation (as referred to in clause 1 (3) of Schedule 1), and

(b) predominantly provides clerical, administrative or managerial services to any related corporation,

the premium payable by the employer is to be calculated by reference to the percentage rate of the class applicable to the related corporation.

(2) However, in the case where the employer provides such services to more than one related corporation, the premium payable by the employer is to be calculated:

(a) by reference to the highest percentage rate of the classes applicable to the respective related corporations, or

(b) if the employer is able to demonstrate that such services are predominantly provided to a particular related corporation—by reference to the percentage rate of the class applicable to that related corporation.

4 If an employer has a business that is covered by Table A's classes 612310, 612320, 612330, 931120, 931130, 931920, 931930, 931940 and 970000 (being classes that refer to a per capita rate), the employer's basic tariff premium is to be calculated, to the extent that the business relates to those classes, on the basis of the per capita rates concerned rather than on the basis of wages.

5 Guidelines issued by the WorkCover Authority may provide for the pro rata of per plate rates for Taxi and Hire Cars classes (class numbers 612310, 612320 and 612330).

6 In relation to the class applicable to ministers of religion (961000) note that clauses 17 and 18 of Schedule 1 to the *Workplace Injury Management and Workers Compensation Act 1998* provide special procedures by which ministers of religion may be treated as workers for the purposes of the Act.

7 In the case of a labour hire business more than one class may apply. The class applicable to each category of worker hired out is the class that applies to the industry most closely associated with the occupation of the labour provided by the labour hire business.

8 In Table A "Mfg" means "Manufacturing".

9 In Table A "nec" means "Not Elsewhere Classified".

10 The WorkCover Authority may, from time to time, issue guidelines for the application of the NSWWIC System.

DIVISION B MINING

The scope of the Mining division includes all employers engaged in ‘mining', in exploration for minerals, and in the provision of a wide variety of services to mining and mineral exploration, as well as mining projects under development.

The term ‘mining’ is used in the broad sense to include the extraction of minerals occurring naturally as solids such as coal and ores, liquids such as crude petroleum, or gases such as natural gas. Extraction of minerals is undertaken by such processes as underground or open cut mining, dredging, quarrying, the operation of wells or evaporation pans, or by recovery from ore dumps or tailings, and all supplementary activities aimed at preparing the crude materials for marketing.

Activities include milling, dressing and beneficiation of ores, screening, washing and flotation. These activities are generally carried out at or near mine sites as an integral part of mining operations. Natural gas absorption, purifying and similar treatment plants are also included in this division.

The Mining Division excludes employers engaged in refining or smelting of minerals or ores (other than the preliminary smelting of gold), or in the manufacture of such products of mineral origin as coke or cement.

CONTAMINATED LAND MANAGEMENT ACT 1997

Section 15

Declaration of Investigation Area
Declaration Number 15008

THE Environment Protection Authority ("EPA") declares the following land to be an investigation area under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies:

Lot 222, DP 1013964 in the Parish of Newcastle, County of Northumberland, known as the Rod and Bar Mills, being part of a former steelworks complex,

and

the bed sediments of the Hunter River which are in the area adjacent to the Rod and Bar Mills and which fall within 120m from the land-based boundary of the Rod and Bar Mills.

2. Nature of the substances believed to be causing the contamination:

Petroleum hydrocarbons (including benzene, toluene, ethyl benzene, and xylenes), polycyclic aromatic hydrocarbons, metals, cyanides, and ammonia. (Referred to as 'the contaminants').

3. Reasons for the declaration:

The EPA has reasonable grounds to believe that the land to which this declaration applies is contaminated with substances listed above in such a way as to present a significant risk of harm, for the following reasons:

- the long history of industrial steel processing operations at the Rod and Bar Mills;
- the potential for contamination typically associated with such activities;
- the confirmed presence within the Rod and Bar Mills of an area which is contaminated with benzene (a known human carcinogen);
- the potential for off-site migration of contaminants into the South Arm of the Hunter River (as evidenced by reported seeps exuding from the Rod and Bar Mills into the Hunter River); and
- there are both human and biota exposure pathways to the contamination in the soils, groundwater, sediments and waters of the South Arm of the Hunter River.

4. Further action under the Act:

The making of this declaration does not prevent the carrying out of a voluntary investigation of the area and any person may submit a voluntary investigation proposal for the area to the EPA. If the proposal satisfies the requirements of section 19 of the Act, the EPA may agree to the proposal and not issue an investigation order.

5. Submissions invited:

The EPA advises that the public may make written submissions to the EPA on:

- Whether it should issue an investigation order in relation to the area, and/or
- Any other matter concerning the area.

Submissions should be sent in writing to

Director Contaminated Sites,
NSW EPA,
PO Box A290,
SYDNEY SOUTH 1232,
or faxed to (02) 9995 5999,

by no later than 13 July 2001.

LISA CORBYN,
Director General.

Dated: 14 June 2001

NOTE:

Investigation order may follow

If investigation of the area or part of the area is required, the EPA may issue an investigation order under s.17 of the Act.

Variation/Revocation

This declaration may be varied by subsequent declarations. It remains in force until it is revoked. A declaration may only be revoked when the EPA does not have reasonable grounds to believe that land is contaminated in such a way as to present a significant risk of harm. (s.44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this investigation declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to inform the relevant local council, as soon as practicable, that this declaration has been made. The council is then required to note on its planning certificate issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act that the land is currently within an investigation area. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the council is then required to remove the notation from the s.149 (2) certificate.

Voluntary investigation

The making of this declaration does not prevent the carrying out of a voluntary investigation of the site by any person.

CONTAMINATED LAND MANAGEMENT ACT 1997

Section 21

Declaration of Remediation Site
Declaration Number 21022

THE Environment Protection Authority (EPA) declares the following land to be a remediation site under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies:

Lot 221, DP 1013964, known as the Closure Area, and the bed sediments of the Hunter River which are in the area adjacent to the Closure Area and which fall within 120 metres from the land based boundary of the Closure Area;

and

Lot 223, DP 1013964, known as the Supply Area,

both Lots being in the Parish of Newcastle, County of Northumberland, and being part of a former steelworks complex.

2. Nature of the substances causing the contamination:

Petroleum hydrocarbons (including benzene, toluene, ethyl benzene, and xylenes), metals, ammonia, cyanide, phenols, and polycyclic aromatic hydrocarbons. (Referred to as 'the contaminants').

The contaminants have been found in soils and groundwater on the Closure Area and Supply Area, and some of the contaminants have been found in the bed sediments in the South Arm of the Hunter River.

3. Nature of harm that the substance may cause:

The EPA has considered the matters in s.9 of the Act and found that:

- The contaminants, some of which are carcinogenic, toxic, bioaccumulative and present as separate phase contaminants, are present in the soils and groundwater on the Closure Area and Supply Area;
- The contaminants have been discharged and have migrated off the Closure Area into the adjoining bed sediments, and polycyclic aromatic hydrocarbons are present in the sediments in elevated concentrations that are indicative of separate phase contamination.

The EPA has found that the site is contaminated in such a way as to present a significant risk of harm to human health and the environment. In particular, it has found that:

- Contamination in the soils of the Closure Area and the Supply Area exceed relevant health based criteria for commercial /industrial use;
- Contamination has impacted on the quality of the groundwater on the Closure Area and Supply Area;
- Some of the contaminants have migrated off these areas and have impacted on the quality of the waters in the South Arm of the Hunter River;
- Contamination on, and discharges from, the Closure Area have impacted on the bed sediments adjacent to that area; and
- There are both human and biota exposure pathways to the contamination in the soils, groundwater, sediments, and, waters of the South Arm of the Hunter River.

4. Further action under the Act:

The making of this declaration does not prevent the carrying out of a voluntary remediation of the site and any person may submit a voluntary remediation proposal for the site to the EPA. If the proposal satisfies the requirements of s.26 of the Act, the EPA may agree not to issue a remediation order to the person or persons bringing the proposal.

5. Submissions invited:

The EPA advises that the public may make written submissions to the EPA on:

- Whether the EPA should issue a remediation order in relation to the site or
- Any other matter concerning the site.

Submissions should be made in writing to:

Director Contaminated Sites,
Environment Protection Authority,
PO Box A290,
