short term credit contract has the same meaning as it has in section 11 of the Act.

[2] Clause 7A

Insert after clause 7:

7A Maximum annual percentage rate for certain short term credit contracts

- (1) For the purposes of section 11 (1A) of the Act, interest charges and all credit fees and charges under a short term credit contract are to be included for the purpose of calculating the maximum annual percentage rate under a short term credit contract. For that purpose, the maximum annual percentage rate under a short term credit contract is to be calculated in accordance with subclauses (2)–(7).
- (2) The maximum annual percentage rate must be calculated as a nominal rate per annum, together with the compounding frequency, in accordance with this clause.
- (3) The maximum annual percentage rate is given by the following formula:

$$i = n \times r \times 100\%$$

where:

n is the number of repayments per annum to be made under the credit contract annualised, except that:

- (a) if repayments are to be made weekly or fortnightly—
n is to be 52.18 or 26.09, respectively, and

- (b) if the contract does not provide for a constant interval between repayments— n is to be derived from the interval selected for the purposes of the definition of j mentioned below.

r is the solution of the following:

$$\sum_{j=0}^t \frac{A_j}{(1+r)^j} = \sum_{j=0}^t \frac{R_j + C_j}{(1+r)^j}$$

where:

j is the time, measured as a multiple (not necessarily integral) of the interval between contractual repayments that will have elapsed since the first amount of credit is provided under the credit contract, except that if the contract does not provide for a constant interval between repayments an interval of any kind is to be selected by the credit provider as the unit of time.

t is the time, measured as a multiple of the interval between contractual repayments (or other interval so selected), that will elapse between the time when the first amount of credit is provided and the time when the last repayment is to be made under the contract.

A_j is the amount of credit to be provided under the contract at time j (the value of j for the provision of the first amount of credit is taken to be zero).

R_j is the repayment to be made at time j .

C_j is the fee or charge (if any) payable by the debtor at time j (j is taken to be zero for any such fee or charge payable before the time of the first amount of credit provided) in addition to the repayments R_j , being a credit fee or charge that is ascertainable when the annual percentage rate is calculated.

- (4) The maximum annual percentage rate must be correct to at least the nearest one hundredth of 1 % per annum.
- (5) In the application of the above formulae, reasonable approximations may be made if it would be impractical or unreasonably onerous to make a calculation.

CONDITIONS AND SUBDIVISIONS

For the purposes of periodic closing and opening of the Hunter River to prawn trawling during the period 3 October 2001 to 31 May 2002, the following conditions and subdivisions will apply:

Conditions

A prawn trawling trial may be undertaken to establish the size of prawns available or the abundance of prohibited size class of fish by-catch. The trial is to be undertaken in a manner agreed between the District Fisheries Officer, Hunter, and the elected Management Advisory Committee (MAC) representative for the Hunter River.

The size of prawns is to be indirectly established by a random count of prawns from a vessel's unsorted catch, which shall be weighed and counted to establish the number

of prawns per 500 grams. This process is hereafter referred to as 'the count'. For the purposes of this notification the count must be equal to or less than 150 prawns before a subdivision may be opened to prawn trawling.

A Fisheries Officer may close a subdivision where the count at any time is more than 150 prawns per 500g or where the number of any prohibited size class of fish by-catch exceeds 50 fish per shot. Once a count of prawns and/or prohibited size class of fish by-catch has been completed, a further trial may not be undertaken for at least 7 days.

Where a subdivision is closed, subdivisions upstream of that closure are also closed unless a trial is undertaken that meets the relevant criteria. Such further trials are only to be undertaken at the request of the elected MAC representative.

The opening of any subdivision shall be notified by a notice displayed in the Newcastle Fishermen's Co-operative, the NSW Fisheries Office at Newcastle and other prominent locations as agreed between the District Fisheries Officer and representatives of persons entitled to prawn trawl in the Hunter River. The closing of a subdivision shall be notified by a public notice in the Newcastle Herald newspaper and notices displayed in the Newcastle Fishermen's Co-operative and the NSW Fisheries Office at Newcastle.

A notice must provide the following information:

- Date of trial and location of trial.
- Prawn count details.
- Prohibited size class of fish by-catch.
- Area of closure.
- Period of closure.
- Proposed date and location of next trial.

A sub-divisional closure is to take effect immediately after the count has occurred, if there are more than 150 prawns per 500 grams or where the number of any prohibited size class of fish by-catch exceeds 50 fish per shot.

Subdivisions

For the purposes of this notification, the following subdivisions of the Hunter River may be closed and opened subject to the conditions of this notice.

Subdivision 1

The waters of the Hunter River downstream of it's junction with the Williams River to it's junction with Scotch Creek inclusive.

Subdivision 2
