RURAL FIRES ACT 1997

NOTIFICATION UNDER SECTION 99

IN pursuance of the powers conferred upon me by section 99 of the Rural Fires Act 1997, I, PHILIP KOPERBERG, Commissioner of N.S.W. Rural Fire Service, under delegation and dated 22nd October 1997 from the Hon BOB DEBUS, Minister for Emergency Services, do, by this notification, direct that the lighting, maintenance or use of all fires in the open air, with the exception of the classes of fire as specified in Schedules 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15 hereto, is prohibited in the parts of the State set out in Schedule A hereto, from midnight on 16th January 2003 to midnight on 17th January 2003.

Dated this 16th day of January 2003.

PHIL KOPERBERG, A.M., A.F.S.M., B.E.M.,
Commissioner.

SCHEDULE 1

Fire lit, maintained or used for the purpose of suppressing or controlling any existing bush fire where such fire is lit, maintained or used under the direction of the Commissioner of the N.S.W. Rural Fire Service, any officer of the N.S.W. Fire Brigade, any officer authorised by the Forestry Commission of New South Wales, any officer authorised by the Director of National Parks and Wildlife Service, or any Fire Control Officer, Captain, Deputy Captain, Group Captain or Deputy Group Captain of any bush fire brigade organised or authorised under the Rural Fires Act 1997.

SCHEDULE 2

Fire lit, maintained or used at a registered factory within the meaning of the Factories, Shops and Industries Act 1962, subject to observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 3

Fire lit, maintained or used at a hospital within the meaning of the Public Hospitals Act 1929, subject to observance of the special condition that the fire is lit in a properly constructed incinerator designed to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 4

Fire lit, maintained or used by, or under the authority of, a Council as defined in the dictionary of the Rural Fires Act 1997, for the destruction of garbage or other refuse at any sanitary depot provided and controlled by such Council subject to observance of the following special conditions:

- (1) a fire break shall be established and maintained around such depot to a width of not less than thirty metres;
- (2) at least one person shall be in attendance continuously at such depot for the duration of the fire;
- (3) all reasonable steps shall be taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 5

Fire lit, maintained or used by or under the authority of any person or body of persons, corporate or unincorporate, for or in connection with essential repair, or maintenance of services or equipment required for continuance or restoration of the supply or provision of heat, light, power, water, sewerage, transport or communication subject to observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 6

Fire lit, maintained or used by a Public Authority as defined in the dictionary of the Rural Fires Act 1997, for the disposal of waste or putrescent material likely to cause a health hazard subject to observance of the special condition that the fire is lit in a properly constructed incinerator designed to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 7

Fire lit, maintained or used between the hours of 7 p.m. and 7 a.m. for a purpose associated with the harvesting of sugar cane subject to observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 8

Fire lit by the Roads and Traffic Authority of New South Wales or its contractors for the purpose of heating bitumen in tankers, sprayers, storage units, mobile asphalt plants, mobile asphalt pavers and pavement recycling machines for road repair and construction activities subject to the observance of a special condition that adequate fire fighting equipment to the satisfaction of the Commissioner of the Rural Fire Service, or his nominee, is immediately available to prevent the escape of any such fire under circumstances as to cause or to be likely to cause injury or damage to any person or the land or property of the Crown or a Public Authority as defined in the Rural Fires Act 1997, or any other person.

SCHEDULE 9

Fire lit, maintained or used for the purpose associated with the drying of products from vineyards within Wentworth and Balranald Council areas subject to observance of the special condition that inflammable material is removed from around the heating apparatus for a distance of not less than ten metres to the specification of the Fire Control Officer.

SCHEDULE 10

Fire lit by a company contracted for the construction of a natural gas pipeline from Young to Lithgow within the Central Tablelands, Central West Slopes and South West Slopes Weather Forecast Districts provided that adequate fire fighting equipment is immediately available to the satisfaction of the Commissioner of the N.S.W. Rural Fire Service or his nominee to prevent the escape of any such fire under circumstances as to cause or to be likely to cause injury or damage to any person or the land or property of the Crown or a Public Authority as defined in the dictionary of the Rural Fires Act 1997, or any other person.

SCHEDULE 11

Fire lit, maintained or used, for the purpose of food preparation on a gas fired or electric appliance where:

- (a) such appliance is under the direct control of a responsible adult person, present at all relevant times;
- (b) no combustible material of any kind is allowed within three metres of the appliance when it is operating;
- (c) a system of applying an adequate stream of water to the appliance and its surrounds is available for immediate and continuous use; and
- (d) where the appliance is not on premises containing a permanent private dwelling or is more than twenty metres from such dwelling, both the appliance and the land on which it is to be placed have been approved for the purpose by the Council of the area.

SCHEDULE 12

Fire lit, maintained or used in accordance with Regulation 27 of the Rural Fires Regulation 1997, for the production of charcoal, 'but not for the destruction of waste arising therefrom,' subject to the observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 13

"Oxy-acetylene and electric welding apparatus used in accordance with the N.S.W. Coal Mine Regulations Act 1982, for the purpose of the maintenance and repair of mining equipment subject to a special condition that adequate fire fighting equipment is available and the operation is conducted within an area identified as a colliery holding."

SCHEDULE 14

"Oxy-acetylene and electric welding apparatus used by the company contracted for the construction of an ethane gas pipeline from Young to Leppington within the Metropolitan, Southern Tablelands, Illawarra and Riverina weather forecast districts provided that adequate fire fighting equipment to the satisfaction of Commissioner of the N.S.W. Rural Fire Service, or his nominee, is immediately available to prevent the escape of any such fire under circumstances as to cause or be likely to cause injury or damage to any person or the land or property of the Crown or a Public Authority as defined in the dictionary of the Rural Fires Act 1997, or any other person."

Rural Fire Service or his nominee to prevent the escape of any such fire under circumstances as to cause or to be likely to cause injury or damage to any person or the land or property of the Crown or a Public Authority as defined in the dictionary of the Rural Fires Act 1997, or any other person.

SCHEDULE 11

Fire lit, maintained or used, for the purpose of food preparation on a gas fired or electric appliance where:

- (a) such appliance is under the direct control of a responsible adult person, present at all relevant times;
- (b) no combustible material of any kind is allowed within three metres of the appliance when it is operating;
- (c) a system of applying an adequate stream of water to the appliance and its surrounds is available for immediate and continuous use; and
- (d) where the appliance is not on premises containing a permanent private dwelling or is more than twenty metres from such dwelling, both the appliance and the land on which it is to be placed have been approved for the purpose by the Council of the area.

SCHEDULE 12

Fire lit, maintained or used in accordance with Regulation 27 of the Rural Fires Regulation 1997, for the production of charcoal, 'but not for the destruction of waste arising therefrom,' subject to the observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 13

"Oxy-acetylene and electric welding apparatus used in accordance with the N.S.W. Coal Mine Regulations Act 1982, for the purpose of the maintenance and repair of mining equipment subject to a special condition that adequate fire fighting equipment is available and the operation is conducted within an area identified as a colliery holding."

SCHEDULE 14

IN pursuance of the powers conferred upon me by section 99 of the Rural Fires Act 1997, I, PHILIP KOPERBERG, Commissioner of N.S.W. Rural Fire Service, under delegation and dated 22nd October 1997 from the Hon BOB DEBUS, Minister for Emergency Services, do, by this notification, direct that the lighting, maintenance or use of all fires in the open air, with the exception of the classes of fire as specified in Schedules 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15 hereto, is prohibited in the parts of the State set out in Schedule A hereto, from midnight on 19 January 2003 to midnight on 20th January 2003.

Dated this 19th day of January 2003.

PHIL KOPERBERG, A.M., A.F.S.M., B.E.M.,
Commissioner.

SCHEDULE 1

Fire lit, maintained or used for the purpose of suppressing or controlling any existing bush fire where such fire is lit, maintained or used under the direction of the Commissioner of the N.S.W. Rural Fire Service, any officer of the N.S.W. Fire Brigade, any officer authorised by the Forestry Commission of New South Wales, any officer authorised by the Director of National Parks and Wildlife Service, or any Fire Control Officer, Captain, Deputy Captain, Group Captain or Deputy Group Captain of any bush fire brigade organised or authorised under the Rural Fires Act 1997.

SCHEDULE 2

Fire lit, maintained or used at a registered factory within the meaning of the Factories, Shops and Industries Act 1962, subject to observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 3

Fire lit, maintained or used at a hospital within the meaning of the Public Hospitals Act 1929, subject to observance of the special condition that the fire is lit in a properly constructed incinerator designed to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 4

Fire lit, maintained or used by, or under the authority of, a Council as defined in the dictionary of the Rural Fires Act 1997, for the destruction of garbage or other refuse at any sanitary depot provided and controlled by such Council subject to observance of the following special conditions:

- (1) a fire break shall be established and maintained around such depot to a width of not less than thirty metres;
- (2) at least one person shall be in attendance continuously at such depot for the duration of the fire;
- (3) all reasonable steps shall be taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 5

Fire lit, maintained or used by or under the authority of any person or body of persons, corporate or unincorporate, for or in connection with essential repair, or maintenance of services or equipment required for continuance or restoration of the supply or provision of heat, light, power, water, sewerage, transport or communication subject to observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 6

Fire lit, maintained or used by a Public Authority as defined in the dictionary of the Rural Fires Act 1997, for the disposal of waste or putrescent material likely to cause a health hazard subject to observance of the special condition that the fire is lit in a properly constructed incinerator designed to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 7

Fire lit, maintained or used between the hours of 7 p.m. and 7 a.m. for a purpose associated with the harvesting of sugar cane subject to observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 8

Fire lit by the Roads and Traffic Authority of New South Wales or its contractors for the purpose of heating bitumen in tankers, sprayers, storage units, mobile asphalt plants, mobile asphalt pavers and pavement recycling machines for road repair and construction activities subject to the observance of a special condition that adequate fire fighting equipment to the satisfaction of the Commissioner of the Rural Fire Service, or his nominee, is immediately available to prevent the escape of any such fire under circumstances as to cause or to be likely to cause injury or damage to any person or the land or property of the Crown or a Public Authority as defined in the Rural Fires Act 1997, or any other person.

SCHEDULE 9

Fire lit, maintained or used for the purpose associated with the drying of products from vineyards within Wentworth and Balranald Council areas subject to observance of the special condition that inflammable material is removed from around the heating apparatus for a distance of not less than ten metres to the specification of the Fire Control Officer.

SCHEDULE 10

SPECIAL SUPPLEMENT

New South Wales

Food Amendment (Goat Milk) Regulation 2003

under the

Food Act 1989

Her Excellency the Governor, with the advice of the Executive Council, has made the following Regulation under the *Food Act 1989*.

CRAIG KNOWLES, M.P.,
Minister for Health

Explanatory note

The object of this Regulation is to provide that a person is exempt from the requirement of the Food Standards Code of the Commonwealth that goat milk for sale by the person must be pasteurised if the person holds an exemption from the Director-General of the Department of Health. Failure to comply with the conditions of an exemption is an offence. Standard 1.6.2 of the Food Standards Code requires milk to be pasteurised unless an applicable law of a State or Territory otherwise expressly provides.

This Regulation is made under the *Food Act 1989*, including section 90 (the general regulation-making power).

Clause 1 Food Amendment (Goat Milk) Regulation 2003

Food Amendment (Goat Milk) Regulation 2003

under the

Food Act 1989

1 Name of Regulation

This Regulation is the *Food Amendment (Goat Milk) Regulation 2003*.

2 Amendment of Food Regulation 2001

The *Food Regulation 2001* is amended as set out in Schedule 1.

Food Amendment (Goat Milk) Regulation 2003

Amendment

Schedule 1

Schedule 1 Amendment

(Clause 2)

Clause 4A

Insert after clause 4:

4A Exemptions relating to goat milk

- (1) A person who is the holder of an exemption issued under this clause is not required to comply with clause 1 (1) of Standard 1.6.2 of the Food Standards Code in relation to goat milk.
- (2) A person may apply to the Director-General for an exemption from the requirements of clause 1 (1) of Standard 1.6.2 of the Food Standards Code in relation to goat milk.
- (3) The Director-General may grant the exemption unconditionally or subject to conditions.
- (4) The Director-General must notify an applicant under this clause in writing of the decision of the Director-General in relation to the application and, if the application is granted, must include in the notification any conditions to which the exemption is subject.
- (5) The holder of an exemption under this clause must not contravene or fail to comply with any conditions to which the exemption is subject.
Maximum penalty: 25 penalty units.
- (6) A permit issued by the Director-General for the purposes of Standard H5 (3) (a) of the Food Standards Code and in force immediately before 20 December 2002 is taken to be an exemption under this clause subject to the same conditions to which the permit was subject.

SCHEDULE 4

Fire lit, maintained or used by, or under the authority of, a Council as defined in the dictionary of the Rural Fires Act 1997, for the destruction of garbage or other refuse at any sanitary depot provided and controlled by such Council subject to observance of the following special conditions:

- (1) a fire break shall be established and maintained around such depot to a width of not less than thirty metres;
- (2) at least one person shall be in attendance continuously at such depot for the duration of the fire;
- (3) all reasonable steps shall be taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 5

Fire lit, maintained or used by or under the authority of any person or body of persons, corporate or unincorporate, for or in connection with essential repair, or maintenance of services or equipment required for continuance or restoration of the supply or provision of heat, light, power, water, sewerage, transport or communication subject to observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 6

Fire lit, maintained or used by a Public Authority as defined in the dictionary of the Rural Fires Act 1997, for the disposal of waste or putrescent material likely to cause a health hazard subject to observance of the special condition that the fire is lit in a properly constructed incinerator designed to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 7

Fire lit, maintained or used between the hours of 7 p.m. and 7 a.m. for a purpose associated with the harvesting of sugar cane subject to observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 8

Fire lit by the Roads and Traffic Authority of New South Wales or its contractors for the purpose of heating bitumen in tankers, sprayers, storage units, mobile asphalt plants, mobile asphalt pavers and pavement recycling machines for road repair and construction activities subject to the observance of a special condition that adequate fire fighting equipment to the satisfaction of the Commissioner of the Rural Fire Service, or his nominee, is immediately available to prevent the escape of any such fire under circumstances as to cause or to be likely to cause injury or damage to any person or the land or property of the Crown or a Public Authority as defined in the Rural Fires Act 1997, or any other person.

SCHEDULE 9

Fire lit, maintained or used for the purpose associated with the drying of products from vineyards within Wentworth and Balranald Council areas subject to observance of the special condition that inflammable material is removed from around the heating apparatus for a distance of not less than ten metres to the specification of the Fire Control Officer.

SCHEDULE 10

Fire lit by a company contracted for the construction of a natural gas pipeline from Young to Lithgow within the Central Tablelands, Central West Slopes and South West Slopes Weather Forecast Districts provided that adequate fire fighting equipment is immediately available to the satisfaction of the Commissioner of the N.S.W. Rural Fire Service or his nominee to prevent the escape of any such fire under circumstances as to cause or to be likely to cause injury or damage to any person or the land or property of the Crown or a Public Authority as defined in the dictionary of the Rural Fires Act 1997, or any other person.

SCHEDULE 11

Fire lit, maintained or used, for the purpose of food preparation on a gas fired or electric appliance where:

- (a) such appliance is under the direct control of a responsible adult person, present at all relevant times;
- (b) no combustible material of any kind is allowed within three metres of the appliance when it is operating;
- (c) a system of applying an adequate stream of water to the appliance and its surrounds is available for immediate and continuous use; and
- (d) where the appliance is not on premises containing a permanent private dwelling or is more than twenty metres from such dwelling, both the appliance and the land on which it is to be placed have been approved for the purpose by the Council of the area.

SCHEDULE 12

Fire lit, maintained or used in accordance with Regulation 27 of the Rural Fires Regulation 1997, for the production of charcoal, 'but not for the destruction of waste arising therefrom,' subject to the observance of the special condition that all reasonable steps are taken to prevent the escape of fire, sparks or incandescent or burning material therefrom.

SCHEDULE 13

Catchment Management Act 1989—Proclamation

MARIE BASHIR, Governor

I, Professor Marie Bashir AC, Governor of the State of New South Wales, with the advice of the Executive Council, and in pursuance of section 21 (1) of the *Catchment Management Act 1989*, do, by this my Proclamation, amend Schedule 1 (Catchment Management Trusts) to that Act by adding in alphabetical order the name “Hawkesbury-Nepean Catchment Management Board”, whose establishment has been recommended by the Minister for Land and Water Conservation, to Part 1 of that Schedule.

Signed and sealed at Sydney, this 18th day of December 2002.

By Her Excellency's Command,

JOHN AQUILINA, M.P.,
Minister for Land and Water Conservation

GOD SAVE THE QUEEN!

Explanatory note

Section 20 (1) of the *Catchment Management Act 1989* provides that a Trust listed in Schedule 1 to that Act is established as a Catchment Management Trust. Section 20 (2) provides that a Trust is a corporation with the corporate name specified in that Schedule.

The object of this proclamation is to add the Hawkesbury-Nepean Catchment Management Board to Part 1 of that Schedule. Part 1 contains the names of Catchment Management Trusts whose establishment has been recommended by the Minister administering the *Catchment Management Act 1989* (at present, the Minister for Land and Water Conservation).

PLANT DISEASES ACT 1924

PROCLAMATION P132

PROCLAMATION to regulate the importation, introduction and bringing into specified parts of New South Wales of certain fruit originating from or which has moved through other specified parts of New South Wales on account of an outbreak of Queensland fruit fly at Deniliquin.

Her Excellency Professor MARIE BASHIR AC, Governor

I, Professor MARIE BASHIR AC, Governor of the State of New South Wales, with the advice of the Executive Council:

1. (a) in pursuance of section 3 (2) (a) of the Plant Diseases Act 1924, revoke Proclamation P106 published in the *Government Gazette* No. 55 of 5 May 2000 at pages 3744; and
 - (b) in pursuance of section 4 (1) of the Plant Diseases Act 1924 and being of the opinion that any host fruit from the suspension area is likely to introduce the pest Queensland fruit fly (*Bactrocera tryoni*) into the outer area, regulate the importation, introduction or bringing into the outer area of any host fruit originating from or which has moved through the suspension area.
2. Host fruit that originates from or that has moved through the suspension area must not be imported, introduced or brought into the outer area unless:
 - (a) the host fruit is in a commercial consignment of host fruit in a securely sealed container or bulk bin that:
 - is unopened and securely sealed while in transit through the suspension area, and
 - leaves the suspension area within 12 hours of its being brought into the suspension area; or
 - (b) the host fruit is accompanied by:
 - a Plant Health Certificate issued by an inspector, or
 - a Plant Health Assurance Certificate that certifies that the host fruit has been treated in a manner approved by the Chief, Division of Plant Industries; or
 - (c) the host fruit has been purchased from a retail outlet, but not from a market or stall, and is accompanied by a receipt or invoice from the retail outlet showing that it was purchased in the preceding 24 hours; or
 - (d) the host fruit is moved in accordance with the written consent of the Chief, Division of Plant Industries.

FISHERIES MANAGEMENT ACT 1994

Section 8 — Notification

Zero Bag Limit — Silver Perch — NSW Rivers

I, EDWARD OBEID, prohibit the taking of silver perch (*Bidyanus bidyanus*) by all methods of fishing from all New South Wales waters, with the exception that silver perch may be taken by any lawful method from the backed up waters of any dam or impoundment.

This prohibition will be effective from 5 February 2003 to 4 February 2008, inclusive.

The Hon. EDWARD OBEID, OAM, M.L.C.,
Minister for Mineral Resources
and Minister for Fisheries

Explanatory note: Silver perch is listed as vulnerable under the Fisheries Management Act 1994. The intention of this prohibition is to renew a previous 1998 ban on the capture of naturally occurring populations of silver perch in New South Wales rivers. Any silver perch accidentally taken must be released unharmed. Silver perch may still be taken by anglers fishing in dams and impoundments subject to normal bag and size limits.

FISHERIES MANAGEMENT ACT 1994

Notification under Section 11

Revocation of Section 8 Fishing Closure

I, Edward Obeid, revoke the closure notification “Fishing Closure - Estuary Zoning” published in Government Gazette Number 64 on 6 April 2001.

SOIL CONSERVATION ACT 1938

PROCLAMATION

Capertee Valley Soil Conservation Project

I, MARIE BASHIR, Governor of the State of New South Wales, with the advice of the Executive Council and in pursuance of section 10 of the Soil Conservation Act 1938, approve a scheme of operations for the purpose of soil conservation and erosion mitigation, as described in the Schedule hereto in respect of the land delineated on the attached map, to be known as the Capertee Valley Soil Conservation Project for the purposes of the Soil Conservation Act.

Signed and sealed at Sydney, 27 November 2002.

By her Excellency's Command,

JOHN AQUILINA, M.P.,
Minister for Land and Water Conservation

GOD SAVE THE QUEEN!

SCHEDULE

Capertee Valley Soil Conservation Project Scheme Of Operations

The general nature and class of operations to be carried out on the area of land shown on the attached map will be soil conservation structural and land management works and measures to reduce the threat of riverbank, riverbed, and gully erosion and to remediate areas already suffering from erosion. The works proposed will not only reduce erosion and subsequent sedimentation, but will also improve the quality of vegetation communities and the condition of both riverbank, in-stream, and valley side habitats.

Soil conservation structural works to be implemented will include:

- Revegetation using local native plant species
- The construction of flumes, drop control structures, bed control structures and other soil conservation devices to arrest streambed and gully erosion
- The construction of rock and timber groynes in areas of accelerated riverbank erosion
- Fencing to restrict stock access to the riverbanks
- The provision of off-river stock watering points
- Salinity treatment works such as revegetation;
- Weed control and bush regeneration works
- Sediment control structures to address soil and water quality issues.

Soil conservation land management works may include:

- Preparation of riverbank and property management plans for landholders, promoting and implementing best practice management

- Improved management of stocking
- Improved control of nutrient runoff by creation of buffer strips.

Components of the scheme of operations may include:

- Capital funded works for gully erosion control, off-river stock watering systems, fencing, and revegetation of riverbanks for bank stability.
- Capital funded works to complement Rylstone Council's Hawkesbury Nepean Local Government Advisory Group funding works.
- Promotion and development of further demonstration sites
- Landowner contributions in a variety of forms for site preparation, maintenance and monitoring and for capital works.
- DLWC funding for staff to design and facilitate the implementation of on-ground works and to liaise with the community, conduct site assessments, and manage the day to day activities of the Project.

WILPINJONG COAL DEVELOPMENT AREA

THE NSW Government invites tenders for an exploration licence in respect of the Wilpinjong coal development area pursuant to sections 14, 15, 16 and 23 of the Mining Act. The Wilpinjong area is located approximately 15km south-east of the village of Ulan in the Western Coalfield. The Wilpinjong tender area covers approximately 43 square kilometres.

The Government objective for this resource is that it be used to provide a long term coal supply to NSW electricity generators. The successful tenderer for the exploration licence will be expected to obtain all necessary approvals

and to build, own and operate a mine that will supply coal to Macquarie Generation. Other domestic generators will have options to purchase coal with due notification.

Interested parties will be required to submit two tenders. The first will be to the Department of Mineral Resources with details of an exploration and development program, together with a fixed price for the first five years of coal supply. The other tender will be submitted to Macquarie Generation for a long term fuel supply, including a fixed price for the first five years of coal supply.

On the basis of tenders received the Government will select a company or consortium, to whom the tender areas will be granted as an Exploration Licence for a period of five years. However, the Government is not bound to accept any tender and the decision in relation to the selection of a successful applicant will be final.

Tenders will be assessed competitively, taking into account criteria such as the fixed price for the first five years of coal supply to Macquarie Generation, the quality of the proposed exploration and development program and technical/financial capability of the tenderer. Cash bidding will not be a factor in assessment of the expressions of interest.

Before any mine development could commence, a full environmental assessment would have to be undertaken, including the preparation of an Environmental Impact Statement to accompany a development application. If a development consent were to be granted, it would be accompanied by stringent conditions to ensure the environment was protected. An appropriate community consultative process would be required prior to and after development.

Additional information and a document setting out further details of the offer, including evaluation criteria and the availability of information, can be obtained from Denis Casey, Assistant Director, Resource Development, Department of Mineral Resources on (02) 9901 8511 or e-mail caseyd@minerals.nsw.gov.au.

Tenders are required to be delivered to Resource Development, Level 4, Minerals and Energy House, 29-57 Christie Street, St Leonards 2065, prior to 12.00 noon on Thursday, 17 April 2003.

**CONTAMINATED LAND MANAGEMENT ACT
1997**

Section 21 — Declaration of Remediation Site
Declaration Number 21035

THE Environment Protection Authority (EPA) declares the following land to be a remediation site under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

Lot 3, DP 843591, known as the Akzo Nobel Chemicals site, 6 Grand Avenue, Camellia, NSW.

2. Nature of the substances causing the contamination

Contaminants, in soil and groundwater, include a range of volatile chlorinated hydrocarbons and chromium. The types of volatile chlorinated hydrocarbons found on site that have the highest concentrations include carbon tetrachloride, chloroform, dichlorodifluoromethane and trichlorofluoromethane.

3. Nature of harm that the substance may cause:

The EPA has determined that the land to which this declaration applies is contaminated in such a way as to present a significant risk of harm because:

- The quality of the on-site soil and groundwater has been significantly degraded by volatile chlorinated hydrocarbons and chromium, which are present at levels significantly above applicable guideline values.
- Carbon tetrachloride and chloroform are considered acutely toxic in the aquatic environment and are classified as possible human carcinogens.
- Chromium is considered both chronically and acutely toxic in the aquatic environment. Chromium VI is classified as a known human carcinogen.
- The potential off-site migration of the contaminants via the groundwater flow poses an unacceptable risk to the aquatic environment and the recreational users of the nearby Parramatta River.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of a voluntary remediation of the site and any person may submit a voluntary remediation proposal for the site to the EPA. If the proposal satisfies the requirements of s.26 of the Act, the EPA may agree not to issue a remediation order to the person or persons bringing the proposal.

5. Submissions invited

The EPA advises that the public may make written submissions to the EPA on:

- Whether the EPA should issue a remediation order in relation to the site or
- Any other matter concerning the site.

Submissions should be made in writing to:

A/Director Contaminated Sites
Environment Protection Authority
PO Box A290
SYDNEY SOUTH NSW 1232

or faxed to: (02) 9995 5999

by not later than 14 February 2003.

MARK BOURNE,
A/Director Contaminated Sites,
Environment Protection Authority
(by delegation).

Dated: 24 January 2003.

NOTE:**Remediation order may follow**

If remediation of the site or part of the site is required, the EPA may issue a remediation order under s.23 of the Act.

Variation/Revocation

This declaration remains in force until it is otherwise varied or revoked. A declaration may only be revoked when the EPA does not have reasonable grounds to believe that land is contaminated in such a way as to present a significant risk of harm (s.44 of the Act).

Information recorded by the EPA

Section 58 of the Contaminated Land Management Act 1997 requires the EPA to maintain a public record. A copy of this remediation declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act that the land is currently within a declaration area. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s.149 (2) certificate can be removed.

Roads Act 1993, Section 162

Erratum

THE notification of Naming and Re-naming Roads published in the *Government Gazette* of 12th October, 2001, No. 156, Folio 8595 is corrected by the insertion of:

4. The retention of the existing name "Old Bogangar Road" for the service road fronting the existing residential lots immediately north of Depot Road.

The inclusion of the above will correct the notice which was published and follows:

"NOTICE is hereby given that the Tweed Shire Council, in pursuance of section 162 of the Roads Act 1993, has re-named the following roads:

1. Coast Road, Old Bogangar Road and part of Chinderah Road (from Wooyung Road north to the Chinderah by-pass) to be re-named as 'Tweed Coast Road';
2. The extension of the existing Casuarina Way to Cudgen Creek (within the "Casuarina Beach" development to Sutherland Street) and the re-naming of Catherine Street as 'Casuarina Way';
3. The road connecting the Tweed Coast Road to Casuarina Way presently referred to as the Link Road to be re-named as 'Dianella Drive'.

Authorised by resolution of the Council on 19th September, 2001. J. F. GRIFFIN, General Manager, Tweed Shire Council, Civic Centre, Tumbulgum Road, Murwillumbah, NSW 2484." [0029]

Have You Obtained Your New Vehicle 'Running Sheets – Log Books'?

In September 2002, the Premier's Department issued their new Motor Vehicle Policy for NSW Government Agencies.

Section 3, Fleet Management, highlights the need for all fleet car users to complete ‘**Running Sheets**’ and endorses running sheets as supplied by cmSolutions (incorporating GPS and State Mail).

Further information on **‘Running Sheets’** is available under Section 3.3 of the Motor Vehicle Policy statement (www.premiers.nsw.gov.au).

[illegible]

Supplies of **'Running Sheets'** can be obtained by contacting cmSolutions, FastForms division, quoting **Product Code 501100**.

Additionally we can modify the '**Running Sheets**' to meet any additional agency requirements.
